

GS-III Conservation, Environmental Pollution and Degradation, Environmental Impact Assessment

- 1. Climate crisis demands that countries cooperate and work together to reduce emissions. Analyze the statement in the context of recently concluded CoP 25 Summit.**

Why this Question?

- In the just concluded 25th Conference of Parties (CoP25) to the UN Framework Convention on Climate Change (UNFCCC) held in Madrid, Spain, went over time by two days, and ended up with more animosity between countries than ever before.

Key Demands of Question:

- Mention the brief Introduction about the severity of the climate change taking place across the globe.
- Analyse the causes for the failure of the Cop 25 climate talks.
- Discuss the way forward measures to tackle the climate change.

Directive word:

Analyze:

- To examine in very close detail and to identify the various important points and chief features.

Structure of Answer:

Introduction:

- Highlight the severity of the climate crisis taking place across the globe. Illustrate with examples.

Body:

- Explain about the causes for the failure of climate talks in Cop 25.
- Discuss the present climate crisis demands that the countries must work and cooperate together to reduce the emissions.
- Highlight the loopholes in the Kyoto protocol regarding carbon credits.
- Mention the way forward measures to implement the Paris agreement to reduce the emissions of the greenhouse gases.

Conclusion:

- Conclude with the severity of the issue and the world leaders should come forward to tackle the global problem.
