

GS-I Events from 18th Century Such as Industrial Revolution, World Wars, Redrawal of National Boundaries.

- 1. Why did the industrial revolution first occur in England? Discuss the quality of life of the people there during the Industrialization. How does it compare with that in India at Present?**

Why this Question?

- India, a dominant force on the global stage until the mid-19th century, suddenly and almost without protest, abdicated its leadership position to a handful of European countries.

Key Demands of Question:

- Give brief intro about the industrial revolution and explain why it first occurred in Britain.
- Discuss the various consequences of the industrial revolution especially in the quality of life of the people and Environment.
- Compare it with the India's Present Condition.

Directive word:

Discuss:

- This is another common directive which is an all-encompassing one – you have to debate on paper by going through the details of the issues concerned by examining each one of them. You have to give reasons for both for and against arguments. And once all the discussion is done, a suitable apt conclusion may be given at the end of the answer.

Structure of Answer:

Introduction:

- Explain in brief about the Industrial revolution that takes place in the 18th century.

Body:

- Explain why industrial revolution First Occurred in Britain.
- Discuss the various factors that led to the development of the industrial revolution in Britain. For example, scientific invention, Natural resources, etc.
- Discuss the consequences of the industrial revolution on the quality of the life of the people.
- Compare that with the India's at present condition.

Conclusion:

- Conclude with the way forward measures to reduce the negative implications of the Industrialization.
